

Filter

This button allows you to look at parts of your gradebook. For example only look at assignments or test.

When you click the filter button you will see this dropdown.

The screenshot shows the Blackboard Grade Center interface for Texas Wesleyan University. The main content area is titled "Grade Center : Full Grade Center". Below the title, there is a "Filter" button. A blue arrow points from the text above to this button. The interface also includes a "Manage" dropdown menu and a "Reports" dropdown menu. The "Filter" dropdown menu is currently open, showing options for "Category" (All Categories) and "Status" (All Statuses). Below the dropdowns, there is a table with columns for "Last Name", "First Name", "Username", "Student ID", "Last Access", "Availability", "Weighted Total", and "Total". The table contains two rows of data for "User" with "Test-01" and "Test-02".

Last Name	First Name	Username	Student ID	Last Access	Availability	Weighted Total	Total
User	Test-01	testuser01			Available	--	--
User	Test-02	testuser02			Available	--	--

Each of the menus allow you to filter the viewing information in the gradebook.
